

## Embracing the Future ...

As access to technology becomes more readily available, more information is distributed in an electronic format at an exponential rate. The latest technology for the classroom provides this information in a highly interactive and engaging environment for our students.

We provide all of our students in grades 7-12 with a laptop computer that they may utilize 24 hours per day. We also provide shared access to tablets for students in grades K-6 at a 1:2 ratio.

This arrangement along with training for our teachers and a mobile high definition four-way video conferencing unit puts us in a position that opens many doors through a highly engaging learning environment.

We are continually looking for new and progressive ways to educate our students utilizing the tools that are a natural fit with their learning styles.

# SMALL DISTRICT VAST OPPORTUNITIES

With smaller class sizes, dedicated teachers, extra-curricular activities and technological access to a world of information and specialized courses, our students have the opportunity to be a part of remarkable experiences.

## STUDENTS:

Our award-winning students are focused on hard work and being involved in the school and community alike. The participation rate in extra-curricular activities is above 90% in a wide variety of sports, clubs, and service organizations. Students "round out" their education by giving back to the community through these organizations and others. Sure, we are biased, but we feel that we have the greatest children in the state.

*Attention to students as individuals in small class sizes.*

*State and nationally recognized student achievement.*

## TEACHERS & CURRICULUM:

Our experienced staff continually seeks out new and innovative ways to best prepare our students. By utilizing their expertise in the methodology of teaching, through the analysis of student performance data, and the willingness to constantly improve, our teachers excel at placing student learning as their highest priority. High expectations and unyielding support bring out the potential of our students in a nurturing environment.

*Dedicated teachers in highly interactive classrooms.*

*Access to online coursework and information from anywhere - 24 hours per day - 7 days per week.*

## COMMUNITIES:

We are a consolidated school serving the highly supportive communities of Henderson and Bradshaw. Our families know the importance of a quality education and work with the school to instill this value in all of our students. Small town living with access to a quality school system ... now, that is a great combination!

*Henderson.*

*Bradshaw*
