

# The Huskies Leader

## From Brad Best, Superintendent...

What great autumn weather we are having! It has been quite some time since I can remember such a true 'fall season'. We hope that harvest is going or went well for you and that all crops are safely stored away for the winter.

We are excited to announce that we will be implementing a new program to enhance our lunch offerings here at school. The "Beef in Schools" program is way for us to use locally raised beef and serve this high quality meat to our students twice each week. Alan Janzen and Travis Miller of Circle 5 Beef Co. have most graciously stepped forward to sponsor this program with the donation of the beef! Our committee will be gearing up to give everyone a chance to be involved. We are also hopeful to expand this program to provide educational opportunities for our students in learning about how food moves from the farm to their plate. Stay tuned on how you can become involved!

As we work to expand our technology opportunities for students, over the last couple of years we have placed a couple pieces of exciting equipment in our Industrial Technology and Ag Science areas. One of the pieces is a CNC router that engraves materials based on designs produced on a computer. The most recent addition is a 3-D printer. This device uses plastic material to literally "print" three dimensional objects that were designed by students on a computer with drafting software.

You can receive alerts from the school via email, phone call, or text message. With winter weather just around the corner, you may want to set your own preferences on which calls you receive on which devices. You can do this by logging in to a website. A short video that explains the easy process can be seen at:

<https://vimeo.com/schoolmessenger/parentpreferences>

## School Closing Information

As the winter approaches, occasional bad weather necessitates the closing of school for the safety of our students. School closing information will be announced over the radio station KAWL (1370) and television stations KHAS, KLKN, NTV and KOLN.

We also use an automated phone message service through School Reach which we will use to contact parents about school closings as well. With this service it is very important that we have current contact numbers on file. Please call the school office if anything changes.

**You may also call our school closing phone line at 402-723-4421.**

If a decision has been made the night before, the closing will be announced around 10:00PM. In the mornings it will be announced on the half hour from 6:30AM to 8:00AM.

**OUR MISSION: The Heartland Community Schools of Henderson & Bradshaw is dedicated to educating all students by providing challenging opportunities to learn according to individual needs.**

NASB is a private, nonprofit organization that serves the needs of Nebraska public school districts and Educational Service Unit board members. Board members from across the state may participate in board development training throughout the year by attending workshops and conferences to help strengthen their role in governance, legislative advocacy, and stewardship of district resources in support of student achievement.

Board members are awarded for their participation in NASB Services and Programs as well as attendance at NASB workshops and events. Just as board members have made a commitment to provide a quality education for students in their districts, NASB strives to provide quality resources and opportunities for its members. There are ten total levels of achievement that carry over year to year. In recognition of their volunteer time and commitment to education, the Association commends continued participation and growth in knowledge and best practice governance. Through the Awards of Achievement program, the following board members in attendance were recognized at the meeting for their outstanding excellence:

NASB President Jon Anderjaska with board secretary, **Boyd Stubr, Jr.** for achieving Level 5 recognition for his service.

NASB President Jon Anderjaska with board president, **Gary Braun** for achieving Level 8 recognition for his service.

The 2016 Veterans Day Program is scheduled to be held at 9:00 A.M. on November 11th. If the volleyball team is competing in the state tournament on that day, the program will be held on November 14th at the same time. Please contact the school if you are unsure of which date the program will be held.

In addition to the usual music and history presentations, Chief Warrant Officer 3 Kevin Beringer will be our guest speaker. Beringer is a resident of Henderson and has served 23 years in the Army. His tours have included: 1 year in Korea; 10 months in Kuwait during Operation Iraqi Freedom; and 8 months in Afghanistan during Operation Enduring Freedom.

A coffee and cookie reception will be held for the veterans and their families in the school cafeteria following the program. We hope to see you there.

## Breakout EDU

Students in Mrs. Ostmeyer's 7th Grade English class participated in a Breakout EDU game. Students were given the task of opening five sophisticated locking mechanisms within thirty minutes. Clues to opening the locks were hidden around the library. Some clues included secret messages with invisible ink that students decoded with a UV flashlight. This exercise was designed to promote team building, critical thinking, problem solving, and literacy/library skills. Students escaped with six minutes and thirty seconds left on the clock!!

Four Corners Health Department is concerned with the health of you and your family. We would like to share with you some facts about Whooping Cough, or pertussis as we have had recent cases in young and school-aged children. Now that school year has started, we would like to share with you more about Whooping Cough.

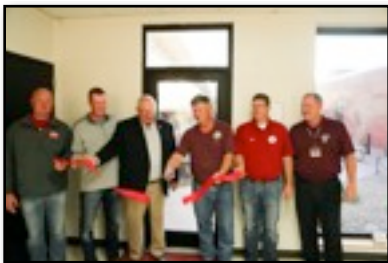

Whooping Cough is very serious illness that affects the lungs and breathing tubes, causing violent coughing you cannot stop. It is easily spread to other people through the air by coughing and sneezing. It is most harmful for young babies and can be deadly. The DTAP vaccine protects against whooping cough.

Watch for the signs of whooping cough. Whooping cough starts with:

- Runny or stuffed-up nose
- Sneezing
- Mild cough
- A pause in breathing in infants
- After 1 to 2 weeks, coughing, which can be severe, starts and:
- Children and babies can cough very hard, over, and over
- When children gasp for breath after a coughing fit, they make a “whooping” sound
- Coughing can make it hard to breathe, eat, drink, or sleep
- Coughing fits happen more at night
- Coughing can include vomiting
- Babies and young children may turn blue while coughing from lack of oxygen.

If you or your children have these signs, check with your family physician and be tested. The good news is that the illness can be treated with antibiotics. If you have any questions please call the Four Corners Health Department at (402) 362-2621 or toll free (877) 337-3573
