

STUDENTS ATTENDING STATE AND NATIONAL EVENTS

When a current student at Heartland Community Schools is expected to attend a state or national convention because of an office or position held, the school may, with board approval, provide a maximum of \$300 or one-half of the total cost of transportation, lodging and registration. The amount will be determined by using the lesser of the two options.

When a current student has earned the right to attend a state/national conference by virtue of competing and qualifying for competition at the district/state/national level, the district may pay for the registration and lodging. The sponsoring activity may assist the student in paying for transportation and meals.

The registration, transportation, and lodging expenses of the sponsor will be paid by the district and the sponsoring activity may assist with meals.
